

# ALUMINUM WINDOWS & DOORS

## Milgard Aluminum Windows and Doors

Because Milgard® standard aluminum windows are a premium window product, we offer the options and features you expect in a premium window line. Things like our SunCoat® Low-E high-performance insulating glass (standard on all Milgard windows and doors) and four color finishes to match your design taste. Our standard aluminum windows also include the Milgard Positive Action™ lock on sliding and single hung windows. When your window is closed, it's locked. No more wondering if you left a window unlocked in your home or business.

Our sealed, mechanically joined corners stay square and true over years of use. For salt-air climates, Milgard offers as an option a stainless steel hardware system to minimize corrosion. Like all our windows, our standard aluminum windows are custom made to your home's exact specifications at no extra charge or extended lead time. What's more, they include our industry-leading Full Lifetime Warranty.
